

A Message From Your School Nurses:

Parents, the NYSDOH is advising families to keep appointments for necessary immunizations and health examinations that are due. Grades pre K or K,1,3,5,7,9 and 11 and all new entrants are mandated by law to submit a physical to the school. This 20-21 school year we will not be offering physicals with the school physician until Feb. 3, 2021. This could impact your child's playing sports for the winter season. Please call your school nurse to see if the physical on file for your child is valid for the winter sports season. The list of athletes needing a new physical is posted outside of the HS and MS clinics, as well. Please direct your child to check it.

As we are getting closer to the flu season and compounding the Covid 19 pandemic it is imperative that you have a plan at the ready to pick up your child if he or she becomes ill at school.

The winter sport season begins on Nov. 30, 2020. Your child will need a valid physical dated after Nov. 1, 2019 as well as an interim Health History. The history can not be submitted to the HS or MS clinic before Oct. 31, 2020. There is a black receptacle outside the clinic door for papers.
