February 14, 2019

Dear Union East Families:

This morning, a Union East student reported that a car stopped at the bus stop and offered the student a piece of candy. The student did not respond but watched as the car drove past several times. The student informed the bus driver immediately and also reported it to adults within the school building. The Cheektowaga Police Department was informed, a report was filed and it is being handled by the Police Department.

As student safety is our top priority, we ask that you have a conversation with your children about the importance of not talking to strangers, and if a stranger does approach them to report it to an adult immediately as was done this morning.

Sincerely,

Mrs. Melissa Mitchell
Union East Elementary School Principal

Mary A. Morris
Superintendent
